

Patricia Quintin

I am a creative, skilled web developer with over ten years' experience. Creating beautiful pages with clean, standards-compliant code is what I love to do.

But don't just take my word for it:

"Recommending Pat as a web developer is easy; she is talented, creative, efficient and grasps difficult ideas quickly."

- Jaron Sampson, Sr. Software Engineer, NameMedia

"Pat is an excellent web developer and a vibrant team member, finding ways to contribute both inside and outside her areas of expertise."

- Kevin Osborn, Director of Engineering, NameMedia

"...she would...produce perfect XHTML representations of the mock ups that were multi-browser/multi-platform tested."

- Erik Stern, Visual Designer, NameMedia

Employment history

Liberty Concepts, Allston, MA

Front End Developer, April, 2010-present

Building CMS-backed web sites for progressive political candidates and causes.

GyPSii, Warwick, RI

Web Developer, January, 2009-February 2010

Building next-generation GyPSii webtop application: use XHTML, CSS and jQuery to turn graphic mockups into working pages, add them to the project codebase with SVN and help with PHP integration.

NameMedia, Waltham, MA

Web Developer, November 2006-November 2008

Built web pages from mockups using HTML, XHTML, CSS, JavaScript, jQuery, PHP, JSF, RichFaces. Helped convert HTML pages to WordPress themes and JSF web applications. Created logos and headers for e-comm sites. Created banner ads using Flash and animated gifs.

Captains of Industry, Watertown, MA

Office Manager/Webmaster, September 2003-October 2006

Implemented SEO and no-Flash content for web site. Created HTML emails from Photoshop mockups. Provided IT support & user training. Office management, bookkeeping, HR.

Harvard University, Cambridge, MA

Staff Assistant, December 2001-August 2003

Supported Harvard professor and programs. Designed & build department web sites featuring PHP-driven navigation. Provided IT support and training. Created publication design/layout.

Infinitemarket, Newton, MA

Web Designer/Developer, 2000-2001

Produced JSP sites with Java programmers and graphic designer. Designed page flow for user input. Researched and implemented accessibility standards. Developed XSLT for JSP tag library on company intranet.

Consortium for Energy Efficiency, Boston, MA

Office Manager/Network Administrator/Webmaster, 1998-2000

Administrative Assistant, 1997-1998

Designed and built web site for national non-profit organization. Provided IT support and training. Office management, HR, conference planning.
